Global Performance Distribution Sub-Fund, a sub-fund of Pilatus SICAV p.l.c. (the “Company”) is licensed by the Malta Financial Services Authority (“MFSA”) as a Professional Investor Fund (“PIF”) which is available to Qualifying Investors. PIFs are non-retail collective investment schemes, therefore, the protection normally arising as a result of the imposition of the MFSA’s investment and borrowing restrictions and other requirements for retail collective investment schemes do not apply. Investors in PIFs are not protected by any statutory compensation arrangements in the event of the fund’s failure. Share Offer

Up to 100,000,000 Class A Investor Shares with no nominal value are on offer. The offering of the Investor Shares at the Initial Offering Price opened on the 19 August, 2015 and closed on the Closing Date.

During the Offering Period, which shall commence on the first Business Day after the close of the Initial Offering Period, the offer will be for Investor Shares at the Offering Price applicable on the relevant Subscription Day. The Offering Period shall remain open until such time as the Directors determine otherwise.

Acquisition of Investor Shares

Purchases of Investor Shares can be made at the Initial Offering Price during the Initial Offering Period and thereafter at the prevailing Offering Price, by:

- i. submission to the Company at the office of the Administrator of a properly executed Subscription Agreement including the Qualifying Investor Declaration Form, the Bank Transfer Instruction Letter and those documents required in the AML Supplement; and
- ii. remitting the related subscription monies.

In respect of each subscription for Investor Shares during the Offering Period, the Subscription Notice Period shall run as from the first Business Day following receipt by the Company at the office of the Administrator of both:

- a. the documents listed under (i) above; and
- b. confirmation that the full amount subscribed for the Investor Shares has been received in cleared funds.

The Investor Shares will be issued on the first Subscription Day following the expiration of the said Subscription Notice Period.

Full details of the application and subscription process appear in “**Section 9 | Acquisition of Investor Shares**” of the Offering Memorandum.

A specimen Subscription Agreement and Qualifying Investor Declaration Form may be obtained from the Administrator.

Redemption of Investor Shares

Investors are directed to “**Section 10 | Redemption of Investor Shares**” of the Offering Memorandum where the procedures relating to the redemption of Investor Shares and the conditions applicable thereto are outlined. In terms of the Memorandum and Articles, redemption requests are, once made, irrevocable.

In respect of each redemption request, the Redemption Notice Period shall commence to run following receipt by the Company at the office of the Administrator of a valid Redemption Form. The Investor Shares will be redeemed on the first Redemption Day following the expiration of the said Redemption Notice Period.

A specimen Redemption Notice may be obtained from the Administrator.

Net Redemption Proceeds due will typically be paid out within five (5) Business Days from the relevant Redemption Day.

Exchange of Shares

Investor Shares in the Sub-Fund may be exchanged with any other Class of Investor Shares in issue in any other sub-fund established by the Company which allows for such exchange to take place.

Exchanges of Investor Shares in the Sub-Fund with any other Class of Investor Shares in issue in the Sub-Fund are also permitted.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing requests for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down pro rata the number of the Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Investment Restrictions

Other than what is stated above, there are no restrictions in the manner and extent to which the Company may deploy, pledge or otherwise give as security, the assets of the Sub-Fund, or assume liabilities, in pursuit of the specific investment objective, approach and strategies of the Sub-Fund.

Please see the subsection below entitled “**Borrowing Powers**” for further details.

Risk Factors

Investors are directed to the Offering Memorandum where the risk factors applicable to investment in shares of the Company, including in Investor Shares, are explained.

Foreign Exchange Trading Risks

Currency trading is volatile, highly leveraged and may be illiquid. Currency spot, forward and option prices are highly volatile. Such prices are influenced by, among other things: changing supply and demand relationships; government trade, fiscal, monetary and exchange control programs and policies; national and international political and economic events; and changes in interest rates. In addition, governments, from time to time, intervene directly and by regulation in these markets with the specific intention of influencing such prices.

Furthermore, as an added risk in these volatile and highly leveraged markets, it is not always possible to liquidate positions to prevent further losses or recognize unrealized gains. Principals in the interbank currency markets have no obligation to continue to make markets in the currencies traded. There have been periods during which certain banks and dealers have refused to quote prices for currencies or have quoted prices with an unusually wide spread between the price at which they are prepared to buy and that at which they are prepared to sell. The inability to liquidate currency positions creates the possibility of the Fund being unable to control its losses.

OTC Derivatives

The Sub-Fund may enter into over the counter agreements (“OTC Derivative Agreements”). These agreements are individually negotiated and can be structured to include exposure to a variety of different types of investments, asset classes or market factors. Depending on their structure, OTC Derivative Agreements may increase or decrease the Sub-Fund's exposure to, for example, equity securities. OTC Derivative Agreements can take many different forms and are known by a variety of names. The Sub-Fund is not limited to any particular form of OTC Derivative Agreements if consistent with the Sub-Fund's investment objective and policy. Whether the Sub-Fund's use of OTC Derivative Agreements will be successful will depend on the Sub-Investment Manager's ability to select appropriate transactions for the Sub-Fund. Derivative transactions may be highly illiquid and may increase or decrease the volatility of the Sub-Fund's portfolio. Moreover, the Sub-Fund bears the risk of loss of the amount expected to be received under an OTC Derivative Agreement in the event of the default or insolvency of its counterparty. The Sub-Fund will also bear the risk of loss related to OTC Derivative Agreements, for example, for breaches of such agreements or the failure of the Sub-Fund to post or maintain required collateral. Many derivative markets are relatively new and still developing. It is possible that developments in the derivative markets, including potential government regulation, could adversely affect the Sub-Fund's ability to terminate existing derivative transactions or to realise amounts to be received under such transactions.

Liquidity Risk

The Sub-Fund is also subject to liquidity risk, which is the risk that the Sub-Fund may be unable to meet its obligations as they become due. The ability of the Sub-Fund to meet its obligations will be dependent on, *inter alia*, the timely payment of any amounts due under the assets in which the Sub-Fund may have invested in. At various times, the markets for securities in which a Sub-Fund may invest in may be “thin” or illiquid, making purchases or sales of securities at desired prices or in desired quantities difficult or impossible. The Sub-Fund is also subject to the risk of delay arising between the scheduled payment dates for interest, dividends or other distributions owed to the Sub-Fund in respect of the assets in which the Sub-Fund has invested in and the date of actual receipt of those payments, dividends or other distributions. Any delay in payments due to the Sub-Fund in respect of the assets in which the Sub-Fund would have invested could result in a delay in payments of the redemption proceeds due by the Sub-Fund to shareholders.

The liquidity of the market may also be affected by a halt in trading on a particular futures or securities exchange or exchanges. Illiquid markets may make it difficult for a Sub-Fund to get an order executed at a desired price. All of the above could result in delays in the calculation of the NAV and/or payment of any Redemption Proceeds. Under certain circumstances, the Sub-Fund may be unable to liquidate portfolio investments due to the absence of a liquid market, and consequently, may not be able to redeem Investor Shares.

Investment in other Collective Investment Schemes managed by the Investment Manager

The Sub-Fund may invest in collective investment schemes managed by the Investment Manager including other sub-funds of the Company. In this case, the Investment Manager shall re-imburse the

Sub-Fund any management and/or performance fees received in connection with the Sub-Fund's investment in the target collective investment scheme.

Non-Rated Bonds

The Sub-Fund may invest in bonds which may be unrated. The issuers of such instruments may face significant on-going uncertainties and exposure to adverse conditions that may undermine the issuer's ability to make timely payment of interest and principal. Such instruments are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligations and involve major risk exposure to adverse conditions. In addition, an economic recession could severely disrupt the market for most of these securities and may have an adverse impact on the value of such instruments. It is also likely that any such economic downturn could adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon and increase the incidence of default for such securities.

Exchange-Traded Funds

The Sub-Fund may invest in exchange-traded funds ("ETFs"). An ETF trades like common stock and represents a fixed portfolio of securities designed to track a particular market index. The risks of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although lack of liquidity in an ETF could result in it being more volatile and ETFs have management fees that increase their costs. ETFs are also subject to other risks, including: (a) the risk that their prices may not correlate perfectly with changes in the underlying index; and (b) the risk of possible trading halts due to market conditions or other reasons that, in the view of the exchange upon which an ETF trades, would make trading in the ETF inadvisable. An exchange-traded sector fund may also be adversely affected by the performance of that specific sector or group of industries on which it is based.

Use of Prime Brokers to Hold Assets

Some or all of the assets of the Sub-Fund may be held in one or more margin accounts with the prime brokers. The margin accounts may provide less segregation of customer assets than would be the case with a more conventional custody arrangement. The prime brokers may also lend, pledge or hypothecate the assets of the Sub-Fund in such accounts, which may result in a potential loss of such assets. As a result, the assets of the Sub-Fund could be frozen and inaccessible for withdrawal or subsequent trading for an extended period of time if the prime broker experiences financial difficulty. In such case, the Sub-Fund may experience losses due to insufficient assets of the prime broker to satisfy the claims of its creditors and adverse market movements while its positions cannot be traded which would adversely affect the total return to the Sub-Fund.

THE SUB-FUND'S INVESTMENT PROGRAM IS SPECULATIVE AND ENTAILS SUBSTANTIAL RISKS. MARKET RISKS ARE INHERENT IN ALL INVESTMENTS TO VARYING DEGREES. THE PRACTICES ENGAGING IN FINANCE TRANSACTIONS, CAN, IN CERTAIN CIRCUMSTANCES, INCREASE THE ADVERSE IMPACT TO WHICH THE FUND'S INVESTMENT PORTFOLIO MAY BE SUBJECT. NO ASSURANCE CAN BE GIVEN THAT THE SUB-FUND'S INVESTMENT OBJECTIVE WILL BE REALISED. AN INVESTOR MAY LOSE SOME OR ALL OF HIS INVESTMENT.

Pricing

The calculation of the NAV of the Sub-Fund shall be effected by the Administrator at such intervals and on each Valuation Day and in such manner as is stated in the Offering Memorandum.

The Company has also constituted a pledge in favour of Banca Zarattini over the assets of the Sub-Fund entrusted to Banca Zarattini for safe-keeping.

Banca Zarattini is entitled to terminate its business relationship with the Company in respect of the Sub-Fund or its services to the Sub-Fund at any time. The Company may terminate its business relationship with Banca Zarattini at any time.

The present fees and charges of SBS are set out in “**Section 5 | Fees, Charges and Expenses**” hereunder however these are subject to variation from time to time.

SECTION 5 | FEES, CHARGES AND EXPENSES

Investment Management Fee

The Sub-Fund will be subject to an Investment Management Fee of 2.50% per annum, calculated on the NAV on each Valuation Day and will be payable quarterly in arrears.

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Performance Fee

The Investment Manager shall also receive from the Company in respect of the Sub-Fund a Performance Fee on the appreciation in the Gross Asset Value ("**GAV**") of the Sub-Fund over the previous High Watermark ("**HWM**") in respect of each Investor Share outstanding on each Valuation Day.

The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value ("**NAV**") before deduction for any accrued Performance Fee.

For each Calculation Period, a Performance Fee shall be payable in the amount of 30% on the appreciation of the Sub-Fund's GAV over the previous HWM.

Once a Performance Fee has been paid, additional Performance Fees will be payable only once the Sub-Fund's GAV exceeds the new HWM. The HWM is the higher of: (a) the Initial Offering Price and (b) the highest NAV per Share on which a Performance Fee was paid.

The Performance Fee will be deemed to accrue as at each Valuation Day and shall be payable monthly in arrears and normally within fourteen (14) calendar days of the end of each Calculation Period.

Equalisation Adjustments

If an investor subscribes for Investor Shares at a time when the NAV per Share is other than the Peak NAV per Share, certain adjustments will be made to reduce inequities that could otherwise result to the subscriber or to the Investment Manager.

The Peak NAV per Share ("**Peak NAV per Share**") is the greater of (i) EUR100 (being the price at which Investor Shares were issued on the first Business Day following the Closing Date) and (ii) the highest NAV per Share in effect immediately after the end of the previous Calculation Period in respect of which a Performance Fee (other than a Performance Fee Redemption, as defined below) was charged.

- (A) If Investor Shares are subscribed for at a time when the NAV per Share is less than the Peak NAV per Share, the investor will be required to pay a Performance Fee with respect to any subsequent appreciation in the value of those Investor Shares. With respect to any appreciation in the value of those Investor Shares from the NAV per Share at the date of subscription up to the Peak NAV per Share, the Performance Fee will be charged at the end of each Calculation Period by the automatic forfeiture by the Shareholder in favour of the Sub-Fund of such number of the investor's Investor Shares as have an aggregate NAV (after

accrual for any Performance Fee) equal to 30% of any such appreciation (a **“Performance Fee Redemption”**). An amount equal to the aggregate NAV of the Investor Shares so redeemed will be paid to the Investment Manager as a Performance Fee. The Sub-Fund will not be required to pay to the investor the redemption proceeds of the relevant Investor Shares. Performance Fee Redemptions are employed to ensure that the Investor Fund maintains a uniform NAV per Share. As regards the investor's remaining Shares, any appreciation in the NAV per Share of those Investor Shares above the Peak NAV per Share will be charged a Performance Fee in the normal manner described above.

- (B) If Investor Shares are subscribed for at a time when the NAV per Share is greater than the Peak NAV per Share, the investor will be required to pay an amount in excess of the then current NAV per Share equal to 30% of the difference between the then current NAV per Share (before accrual for the Performance Fee) and the Peak NAV per Share (an **“Equalisation Credit”**). At the date of subscription the Equalisation Credit will equal the Performance Fee per Share accrued with respect to the other Investor Shares in the Sub-Fund (the **“Maximum Equalisation Credit”**). The Equalisation Credit is payable to account for the fact that the NAV per Share has been reduced to reflect an accrued Performance Fee to be borne by existing Shareholders and serves as a credit against Performance Fees that might otherwise be payable by the Sub-Fund but that should not, in equity, be charged against the Shareholder making the subscription because, as to such Investor Shares, no favourable performance has yet occurred. The Equalisation Credit ensures that all holders of Investor Shares have the same amount of capital at risk per Share.

The additional amount invested as the Equalisation Credit will be at risk in the Sub-Fund and will therefore appreciate or depreciate based on the performance of the Sub-Fund subsequent to the issue of the relevant Investor Shares but will never exceed the Maximum Equalisation Credit. In the event of a decline as at any Valuation Day in the NAV per Share, the Equalisation Credit will also be reduced by an amount equal to 30% of the difference between the NAV per Share (before accrual for the Performance Fee) at the date of issue and as at that Valuation Day. Any subsequent appreciation in the NAV per Share will result in the recapture of any reduction in the Equalisation Credit but only to the extent of the previously reduced Equalisation Credit up to the Maximum Equalisation Credit.

At the end of each Calculation Period, if the NAV per Share (before accrual for the Performance Fee) exceeds the prior Peak NAV per Share, that portion of the Equalisation Credit equal to 30% of the excess, multiplied by the number of Investor Shares subscribed for by the Shareholder, will be applied to subscribe for additional Investor Shares for the Shareholder. Additional Investor Shares will continue to be so subscribed for at the end of each Calculation Period until the Equalisation Credit, as it may have appreciated or depreciated in the Sub-Fund after the original subscription for Investor Shares was made, has been fully applied.

If the Shareholder redeems its Investor Shares before the Equalisation Credit (as adjusted for depreciation and appreciation as described above) has been fully applied, the Shareholder will receive additional redemption proceeds equal to the Equalisation Credit then remaining multiplied by a fraction, the numerator of which is the number of Investor Shares being redeemed and the denominator of which is the number of Investor Shares held by the Shareholder immediately prior to the redemption in respect of which an Equalisation Credit was paid on subscription.

Administration Fee

The Company pays to the Administrator an Administration Fee of 0.135% per annum based on the

Net Asset Value of the Sub-Fund subject to a minimum Administration Fee of EUR17,500 per annum. Such fee shall accrue at each Valuation Day and be payable monthly in arrears.

The Administrator is reimbursed for any reasonable out-of-pocket expenses necessarily incurred in the performance of its duties.

Executing Brokerage Fees

The Sub-Fund pays the Executing Brokers a fee based on current market rates.

Other Expenses

The Sub-Fund shall bear the costs incurred for the establishment and regulatory licensing of the Sub-Fund and the offering of the Investor Shares. In particular it shall incur a fee of EUR1,000 payable to the MFSA in respect of the application for licensing of the Sub-Fund and an annual supervisory fee of EUR600 payable to the MFSA upon licensing and, thereafter, on each anniversary of the licensing of the Sub-Fund.

The Sub-Fund will bear its own operating expenses, including, but not limited to, fees payable to the Executing Brokers, Administrator and Investment Manager, organisational and investment expenses (reasonably determined to be related to the investment of the Sub-Fund's assets), administrative expenses, marketing expenses, legal and licensing expenses, government fees, audit, interest and shareholder communication expenses and other expenses associated with the operation of the Sub-Fund. The Sub-Fund may reimburse the Investment Manager for some of the investment expenses incurred in connection with its rendering investment advice and other services to the Sub-Fund (including, without limitation, compensation for ongoing operational, systems, research and due diligence). The Investment Manager and the Administrator will be responsible to track the expenses of the Sub-Fund. Preliminary and ongoing legal, printing and continuous offering documentation expenses, subject to a maximum of EUR100,000, borne by the Sub-Fund in connection with the continuous offering of Investor Shares, will be capitalized and then amortised by writing off equal instalments on each Valuation Day over five (5) years (and thereafter as incurred).

Whilst the Investment Manager considers that such a valuation methodology is appropriate such policy may conflict with International Financial Reporting Standards.

The Sub-Fund will also be subject to other fees including, its pro-rata share of the operating expenses of the Company as set out in the Offering Memorandum.

Subscription Charge

Up to 3% of the subscription amount.

Redemption Charge

Up to 3% of the redemption amount.
