Karat Gold Sub-Fund, a sub-fund of Pilatus SICAV p.l.c. (the “Company”) is licensed by the Malta Financial Services Authority (“MFSA”) as a Professional Investor Fund (“PIF”) which is available to Qualifying Investors. PIFs are non-retail collective investment schemes, therefore, the protection normally arising as a result of the imposition of the MFSA’s investment and borrowing restrictions and other requirements for retail collective investment schemes do not apply. Investors in PIFs are not protected by any statutory compensation arrangements in the event of the fund’s failure. The MFSA has made no assessment or value judgement on the soundness of the Company and its Sub-Funds or for the accuracy or completeness of the statements made or opinions expressed with regard to them.

The offering of the Class A Investor Shares at the Initial Offering Price opened on the 7 July, 2016 and shall close on the Closing Date. The Company is entitled to close the Initial Offering Period at any time prior to the Closing Date or to extend it beyond the Closing Date and this at its sole discretion.

During the Offering Period, which shall commence on the first Business Day after the close of the Initial Offering Period, the offer will be for Investor Shares at the Offering Price applicable on the relevant Subscription Day. The Offering Period shall remain open until such time as the Directors determine otherwise.

Acquisition of Investor Shares

Purchases of Investor Shares can be made at the Initial Offering Price during the Initial Offering Period and thereafter at the prevailing Offering Price, by:

- i. submission to the Company at the office of the Administrator of a properly executed Subscription Agreement including the Qualifying Investor Declaration Form, the Bank Transfer Instruction Letter and those documents required in the AML Supplement; and
- ii. remitting the related subscription monies.

In respect of each subscription for Investor Shares during the Offering Period, the Subscription Notice Period shall run as from the first Business Day following receipt by the Company at the office of the Administrator of both:

- a. the documents listed under (i) above; and
- b. confirmation that the full amount subscribed for the Investor Shares has been received in cleared funds.

The Investor Shares will be issued on the first Subscription Day following the expiration of the said Subscription Notice Period.

Full details of the application and subscription process appear in “**Section 9 | Acquisition of Investor Shares**” of the Offering Memorandum.

A specimen Subscription Agreement and Qualifying Investor Declaration Form may be obtained from the Administrator.

Redemption of Investor Shares

Investors are directed to “**Section 10 | Redemption of Investor Shares**” of the Offering Memorandum where the procedures relating to the redemption of Investor Shares and the conditions applicable thereto are outlined. Exchanges of Investor Shares in the Sub-Fund with any other Class of Investor Shares in issue in the Sub-Fund is also permitted.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing requests for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down pro rata the number of the Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded, and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Investment Restrictions

Other than what is stated above, there are no restrictions in the manner and extent to which the Company may deploy, pledge or otherwise give as security, the assets of the Sub-Fund, or assume liabilities, in pursuit of the specific investment objective, approach and strategies of the Sub-Fund.

Please see the subsection below entitled “**Borrowing Powers**” for further details.

Borrowing Powers

The Company may borrow funds to pursue the investment objective, approach and strategies of the Sub-Fund. The Company may also borrow money to meet requests for the redemption of Shares.

Please also refer to the above subsection entitled “**Investment, Borrowing and Leverage Restrictions**” for information on the possibility for the Sub-Fund to use leverage.

Risk Factors

Investors are directed to the Offering Memorandum where the risk factors applicable to investment in shares of the Company, including in Investor Shares, are explained.

Potential Lack of Diversification

The Sub-Fund may have a non-diversified portfolio and may have large amounts of its assets invested in a small number of investments. Such lack of diversification substantially increases market risks and the risk of loss associated with an investment in the Sub-Fund.

Performance Fee

The Company will not adopt an equalisation methodology for the calculation of the Performance Fee due to the Investment Manager. Shareholders may accordingly underpay/over pay any Performance Fee due to the Investment Manager when subscribing and/or redeeming their Investor Shares.

Investments in Unlisted Instruments

With respect to private placed securities, companies whose securities are not registered or publicly traded are not subject to the disclosure and other investor protection requirements which would be applicable if their securities were registered or publicly traded. The Investment Manager may be unable to predict with confidence what, if any, exit strategy ultimately will be available for any given illiquid position. Exit strategies that appear to be viable when an investment is initiated may be unavailable by the time the investment is ready to be realised due to economic, legal, political, or other factors. The valuation of the less liquid investments may differ materially from the actual or realisable value of such investments.

Commodities/Precious Metals Risks

Commodity prices generally relate to the overall level of economic activity and industrial production. Historically, during periods of economic or financial instability, commodities and the securities of producers have been subject to extreme fluctuations in market price. The earnings and general financial conditions of producers are highly dependent on the market price of the underlying resources which, historically, have been extremely volatile. Natural disasters, such as earthquakes, droughts and floods, can lead to severe supply disruptions. These events may significantly influence prices of commodities and prices of natural resource equities.

Similarly, supply interruptions as a result of social factors such as strikes and civil unrest can have a material impact on commodity prices. The production of some commodities can be concentrated in geographic regions or specific countries, and as such the impact of natural, political or social factors can have a significant effect. Commodity prices can be influenced, often unpredictably, by cooperative or co-ordinated actions, by producers or sovereign nations (e.g. OPEC members). The discovery of a significant mineral deposit could have a major adverse impact on the price of the commodity due to the prospect of increased supply. New technology could lead to substitution of a commodity or commodities, thereby reducing demand. Similarly, new technology could lower production costs and increase supply of a commodity, influencing its price.

In addition to the standard risks associated with the dynamics of supply and demand, investment in precious metals carries additional risks in relation to their production, transportation and storage. The main risks factors are:

- **Macroeconomic circumstances** (including the phase of the cycle of the global economy, and that of specific regions and industries and currencies);
- **Perceived Supply** of the particular precious metals (including the quality, current demand and general market sentiment);
- **Natural Disasters** - The occurrence of natural disasters can influence the supply of certain precious metals. This kind of supply crisis can lead to severe and unpredictable price fluctuations.

- **Storage and Other Costs** - Direct investment in precious metals involves storage, security, insurance and tax costs. Moreover, no interest or dividends are paid on precious metals. The returns from investments in precious metals are therefore influenced by these factors.
- **Location and Political Risk** - Precious metals are often produced in emerging market countries, with demand coming principally from industrialized nations. The political situation is far less stable in many emerging market countries than in the developed world. Political crises can affect purchaser confidence, which can, as a consequence, affect precious metal prices. Furthermore, in countries where regulation is weak precious metal producers may establish organizations or cartels in order to regulate supply and influence prices.

Non-Rated Debt Securities

The Sub-Fund may invest in debt securities which may be unrated. The issuers of such instruments may face significant on-going uncertainties and exposure to adverse conditions that may undermine the issuer's ability to make timely payment of interest and principal. Such instruments are regarded as predominantly speculative with respect to the issuer's capacity to pay interest and repay principal in accordance with the terms of the obligations and involve major risk exposure to adverse conditions. In addition, an economic recession could severely disrupt the market for most of these securities and may have an adverse impact on the value of such instruments. It is also likely that any such economic downturn could adversely affect the ability of the issuers of such securities to repay principal and pay interest thereon and increase the incidence of default for such securities.

Use of Prime Brokers to Hold Assets

Some or all of the assets of the Sub-Fund may be held in one or more margin accounts with the prime brokers. The margin accounts may provide less segregation of customer assets than would be the case with a more conventional custody arrangement. The prime brokers may also lend, pledge or hypothecate the assets of the Sub-Fund in such accounts, which may result in a potential loss of such assets. As a result, the assets of the Sub-Fund could be frozen and inaccessible for withdrawal or subsequent trading for an extended period of time if the prime broker experiences financial difficulty. In such case, the Sub-Fund may experience losses due to insufficient assets of the prime broker to satisfy the claims of its creditors and adverse market movements while its positions cannot be traded which would adversely affect the total return to the Sub-Fund.

THE SUB-FUND'S INVESTMENT PROGRAM IS SPECULATIVE AND ENTAILS SUBSTANTIAL RISKS. MARKET RISKS ARE INHERENT IN ALL INVESTMENTS TO VARYING DEGREES. THE PRACTICES OF LEVERAGE AND ENGAGING IN FINANCE TRANSACTIONS, CAN, IN CERTAIN CIRCUMSTANCES, INCREASE THE ADVERSE IMPACT TO WHICH THE FUND'S INVESTMENT PORTFOLIO MAY BE SUBJECT. NO ASSURANCE CAN BE GIVEN THAT THE SUB-FUND'S INVESTMENT OBJECTIVE WILL BE REALISED. AN INVESTOR MAY LOSE SOME OR ALL OF HIS INVESTMENT.

Pricing

The calculation of the NAV of the Sub-Fund shall be effected by the Administrator at such intervals and on each Valuation Day and in such manner as is stated in the Offering Memorandum.

Section 4 | THE EXECUTING BROKER

Zarattini International Ltd.

In terms of the Terms of Business of Zarattini International Ltd. (the “**Zarattini Terms of Business**”), the Company has appointed **Zarattini International Ltd.** (“**Zarattini**”) as Executing Broker in respect of the Sub-Fund. Zarattini or the Company may terminate their business relationship with immediate effect at any time upon giving written notice to the other party.

The Zarattini Terms of Business are governed by Maltese law and are subject to the non exclusive jurisdiction of the Maltese courts.

The fees and charges of Zarattini are set out in “**Section 5 | Fees, Charges and Expenses**” hereunder however these are subject to variation from time to time.

SECTION 5 | FEES, CHARGES AND EXPENSES

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Performance Fee

The Investment Manager shall also receive from the Company in respect of the Sub-Fund a Performance Fee on the appreciation in the Gross Asset Value ("**GAV**") of the Sub-Fund over the previous High Watermark ("**HWM**") multiplied by the average number of Investor Shares in issue in the related class of Investor Shares from the end of the previous Calculation Period on which a Performance Fee was paid.

The Performance Fee in respect of each Calculation Period will be calculated by reference to the Net Asset Value ("**NAV**") before deduction for any accrued Performance Fee.

For each Calculation Period, a Performance Fee shall be payable in the amount of 20% on the appreciation of the Sub-Fund's GAV over the previous HWM.

Once a Performance Fee has been paid, additional Performance Fees will be payable only once the Sub-Fund's GAV exceeds the new HWM. The HWM is the higher of: (a) the Initial Offering Price and (b) the highest NAV per Share on which a Performance Fee was paid.

The Performance Fee will be deemed to accrue as at each Valuation Day and shall be payable quarterly in arrears and normally within fourteen (14) calendar days of the end of each Calculation Period.

The Company will not adopt an equalisation methodology for the calculation of the Performance Fee due to the Investment Manager. Shareholders may according underpay/over pay any performance fee due to the Investment Manager when subscribing and/or redeeming their Investor Shares.

Administration Fee

The Company pays to the Administrator an Administration Fee of 0.135% per annum based on the Net Asset Value of the Sub-Fund subject to a minimum Administration Fee of EUR15,000 per annum. Such fee shall accrue at each Valuation Day and be payable monthly in arrears.

The Sub-Fund will bear its own operating expenses, including, but not limited to, fees payable to the Administrator and Investment Manager, organisational and investment expenses (reasonably determined to be related to the investment of the Sub-Fund's assets), administrative expenses, marketing expenses, legal and licensing expenses, government fees, audit, interest and shareholder communication expenses and other expenses associated with the operation of the Sub-Fund. The Sub-Fund may reimburse the Investment Manager for some of the investment expenses incurred in connection with its rendering of services to the Sub-Fund (including, without limitation, compensation for ongoing operational, systems, research and due diligence). The Investment Manager and the Administrator will be responsible to track the expenses of the Sub-Fund. Preliminary and ongoing legal, printing and continuous offering documentation expenses, subject to a maximum of EUR100,000, borne by the Sub-Fund in connection with the continuous offering of Investor Shares, will be capitalised and then amortised by writing off equal instalments on each Valuation Day over five (5) years (and thereafter as incurred).

Whilst the Investment Manager considers that such a valuation methodology is appropriate such policy may conflict with International Financial Reporting Standards.

The Sub-Fund will also be subject to other fees including, its pro-rata share of the operating expenses of the Company as set out in the Offering Memorandum.
